System Requirements:

Please note that in the list of supported video cards above, the "required" criteria only apply to the AMD GPUs. Because Nvidia GPUs can be much more efficient at gaming than AMD, we have also listed the Nvidia GPUs that we could support. You will be able to find the "Recommended" and "Supported" versions for Nvidia GPUs in the list of Supported GPUs. Having the correct video card is not always enough, as if the best settings for a video card are not used, then the performance of the game may not be optimal for all users
