Established in November 1999, ESP broadcasts primarily to the Puget Sound and Columbia River area, and reaches additional areas in Oregon and Washington. Owned by West Coast Communication, LLC, ESP is affiliated with Fox Sports Radio. It carries programming from Fox Sports Radio, including the Fox Sports Radio Network, Fox NFL Radio and Sporting News Radio. ESP also airs KIRO-FM's "KIRO Sports Tonight" program on weekdays at 7:00 p.m. Seattle Seahawks radio broadcasts. History ESP was co-founded in November 1999 by Andy Ramirez, Jamie Biggs, and Steve Jeffries, who were part of the management team at KIRO. The Seattle Mariners radio network was up for sale in 1999, and the trio was contacted by Michael Slater, the former General Manager for KJR-AM (now KIRO) and WQXI-AM (now KHTK), who expressed interest in buying and relaunching KIRO's radio operations. The three men accepted the proposal, in the belief that there would be an opportunity to use the new venture to pursue other interests. As many stations in the country were beginning to drop their radio formats, ESP had a different approach to developing the new business, beginning with a small staff and the station broadcasting only in the mornings and late afternoons. Later, the station expanded its hours of operation and began broadcasting in the evenings. ES a1d647c40b

"Last year we made great strides in raising awareness about breastfeeding in the workplace and this year we'll continue to focus on this as a top priority," said Bonnie Starr, president and CEO of La Leche League of Eastern Massachusetts, the organization that lobbied for the law. Starr said the organization is also working on promoting "advisory councils" of mothers to help steer the development of a new policy on the state's books. The law, which was signed by state Governor Deval Patrick in April, mandated that private employers provide a place to pump breast milk, provide breaks for breastfeeding mothers and make breast milk available to all. The law is effective June 1. The law requires health care facilities

Everything you design is based on 2D shapes, measured by drawing units, which appear in your drawing in inches, millimeters, centimeters, feet, yards and points. AutoCAD makes it easy to create robust and powerful applications. With AutoCAD, you can also analyze, share and collaborate on CAD drawings easily and efficiently with powerful tools such as Office, SharePoint and OneDrive.
