The results of the analysis of the impact of the mass loss of Tesla devices and electric vehicles on safety have become known.

At the same time, it becomes obvious that the use of an electric car in urban conditions does not lead to a violation of traffic rules and the consequences of an accident. This was announced at a hearing on improving safety among car drivers, an employee of the Department of Transport under the Ministry of Transport of Chile, Professor Aurelio Cortes. The speech of Professor

Cortes gave a positive result. The police support the conclusions of the professor, aimed at preventing accidents with injured pedestrians and the drivers themselves and pedestrians injured as a result of an accident. The results of Professor Cortez's work

on the safety of drivers with electric vehicles in the city of Chile gave a positive result in ensuring road safety. Details at the link: There is a video on my channel on the topic: Reliability of an electric car on the road. Professor Korter's assessment. For
