This is the device i am trying to install. Asus Zenfone 5 (T00F T00J) i did the update and flashed but when Even as it is deeply concerned by the constant threat of cyberattacks from the likes of the Islamic State, Iran and North Korea, the CIA is also eyeing more modest targets like the United States' troves of telephone and Internet data. Last month, a group calling itself "The Shadow Brokers" released a cache of stolen files allegedly stolen from the NSA and CIA, including what appear to be exploits for some of the agency's computer systems. The White House is not publicly acknowledging that the stolen exploits would be suitable to hack into computers belonging to the CIA, but the agency privately confirmed that they would be, according to an interview with Washington Post reporter Devlin Barrett. The CIA has denied the Post's report and a spokesperson pointed to another Washington Post report that the agency had responded to a "select group of threats" with its own "countermeasures." "While we are assessing the credibility of the report, if it were true, we would need to respond," the spokesperson said. But Barrett, who spent more than a year reporting on government secrets for the Post and is now working on a book, said the CIA's denial was not credible. "I have been around the CIA a long time and I know how they operate," he told CBS News. The first attack reportedly took place in April when the Shadow Brokers released what appeared to be a government-level exploit that allowed the hacker group to read and destroy most data on certain Windows-based computers in the CIA. Others have been released since. The group claimed to be working on behalf of a mysterious hacker, nicknamed "The Dark Heart," who has been named as a retired CIA officer. They said the material would be auctioned off in a series of three auctions, with the winner of the final bid paying \$1,300 for each exploit. Describing the CIA response to the initial attack, Barrett noted that, according to one employee, in the agency's obsession with protecting its secrets, it had missed an opportunity. "A lot of that stuff from
