The problem I'm having is that when you tap the screen, the scene is loaded again. I don't want that to happen; I want the previous scene to be loaded (with the enemy on it) but it's not working. I'm using the following code: `GameLayer *gameLayer = [GameLayer node]; CCScene *gameScene = [GameLayer node]; [gameLayer replaceScene:gameScene];` Then I use the CCScene methods to control enemy movement. Here is my scene method (where I run through all the scene nodes): `-(void) onEnter { [super onEnter]; CCScene *scene = [CCScene node]; self.mainLayer = [CCLayer node]; [scene addChild:self.mainLayer]; CCNode *enemy = [CCNode node]; enemy.position = ccp(120,120); enemy.scale = 0.5f; [scene addChild:enemy]; enemy.physicsBody = [CCPhysicsBody bodyWithCircleOfRadius:enemy.contentSize.width / 2`
