[Solved] rundll32.exe error need help please (Resolved)

Feb 10, 2020 , as well as disk compression, anti-spam defense, malware protection, and other useful features. Category:Malware1. Field of the Invention The present invention relates to, in particular, an image reading apparatus in which a document is read by an image sensor, and, more particularly, to an image reading apparatus in which the reading is performed with a magnification between 1.3 and 4.0 times. 2. Description of the Related Art As a conventional image reading apparatus in which a magnification between 1.3 and 4.0 times is variable, a conventional image reading apparatus is known which is configured to drive and control a zoom lens in which a focal distance is variable, thereby varying a magnification ratio between the zoom lens and a document. As an example, Japanese Unexamined Patent Application Publication No. 2007-130598 discloses an image forming apparatus in which, in the case of reading a document at a magnification of more than 3 times, the document is read from the first half of the document. Thus, the size of the document can be reduced for greater ease in handling and the quality of an image can be improved. However, the conventional image reading apparatus in which the magnification is variable by driving and controlling a zoom lens as described above has the following problem. The document is read by the image sensor from the first half of the document. For this reason, when, for example, reading is to be performed in a state in which a magnification of 4.0 times is set and, after that, the magnification is to be set to 1.3 times and the magnification is to be switched by using the magnification variable mechanism, since the conventional image reading apparatus corrects an image of the document so as to correspond to the magnification of 1.3 times in a non-reading state, an image having a size that is larger by approximately one-half than the size of a normal image is read.Q: Why is Radio Play automatically choosen after clicking on my app icon? I have a Radio app that uses Cordova 2.9.0 When I go to my phone and click the app icon, why is the radio automatically chosen? I only have 2 radio apps in my Android phone, my app and a Google Play radio app. My app always plays a song I selected. A: This is because android:intent-filter/:android:category-type uses a.xml
