It was published by EA Games and officially released for Microsoft Windows on January 22, 2002 in North America and February 15, 2002 in Europe. Aspyr Games There are two types of weapons in the game, which differ in appearance and in the principle of operation. The first is a pistol with a single cartridge that shoots at a short distance. The second is a shotgun that shoots at a great distance. Pistols fire both regular bullets and explosives. They can only be used for short range shooting. Shotguns only fire explosive grenades, which explode, dealing damage to the enemy. Grenade, in the
