When playing Gonio VR you will take part in a rehabilitation exercise. We have carefully put together all this to give you the best experience possible, so you know every detail and feel like you really are exercising. Throughout the game you will be shown the movement range of the shoulder and see the exact location and angle of 'pain'. It is very important to align the movement exactly with the location of pain. This is the key to 'healing' the pain. As the game progresses, you will be using different exercises to strengthen the muscles around the shoulder, and as you move on to other chapters, you will learn and understand more about each exercise. You can choose the level of difficulty according to your preference, and 'unlock' all the exercises as you progress. With Gonio VR you will be training 'whole body' and will have the experience of constantly challenging and getting better. In each chapter of Gonio VR you will be given the opportunity to 'cheat' by temporarily not having to complete some exercises, which will give you insights into how to increase your speed, gain strength and understanding of movements in general. Exciting features: 1. The 'arc of pain' - one of the most important steps in treatment is to find the exact location of the problem on the arm and shoulder and make sure you are working on the exact location of the problem. Gonio VR will graphically show you the exact location of pain and help you find and fix the exact problem. 2. Organised exercise system - The organized system gives you clear instruction through each exercise step by step and each chapter contains the same exercises. 3. Key step exercises - The key step exercises are designed to be simple and fun, but to work your shoulder to the max. 4. Game challenges to make you learn and get better - The game challenges are set to be challenging, but still a piece of cake for you to be able to complete. If you complete all the challenges in chapter one, you will unlock chapter two, and so on and so forth. In the end, you will not only be able to control your progress, but also be able to document and monitor the progress of each patient. This will give you an insight into the best way to treat patients and also give you access to the documentation to get it approved by your specialist. 'CATCH MEOW-JONG' PLAYS OUT WITH 'GAME OVER'

For every question you buy for the game, you get another chance to fail. Ten of those fail attempts takes you out of the game. No questions were allowed to be used in those failed attempts.

To make sure you're not driving yourself insane trying to answer every question in record time, there's a simple rule - the more a question solves, the lower the time needed to answer that question.

All attempts you make directly affect the total points you get. You'll find that you need to spend close to your whole value on each question to beat something that requires less time to answer.

FEATURES:

- You have 11 levels of the same question, but with different Evil Animals. Each of them has 10 more levels of it. Each time a level is cleared, you earn 5 points!
- The question solvers you buy earn you less time to answer them, so you have to get all the points for the given question.
- All attempts earn you some rewards, but some of them may have more reward than others. For example, the first attempt of a random question may give you nothing, the second attempt is almost always guaranteed to give you some points.

OTHER KEY FEATURES:

- High resolution graphics for you. And a platonic looking profile pic for you too.

So In the gamethe VR Video use the mouse, jump into the playing field to interact as you play the video on the display screen of the VR headset. It is an amazing application that is very simple to use. At the beginningyou can see a piece of furniture with a small picture, the people on the video is the same as the screen of the VR headset, you can move around through the virtual reality city. Meanwhile the game player can interact on the picture to help the figure in the video, the player can jump, walk on the ground, jump in the air, etc. There are two figures in the game, the male player is the game controller. If you want to play in the application together with another person, you can also chat to each other to chat. When playing in the VR headset, the VR application can be put in mute mode. The video application and the game are very simple to use, it is not difficult to learn, and children can play. There are many scenes for children to play, especially the scenes on the ship, the pirate ship scene, the spaceship, and so on.I AM A BIG FAN OF GAMES, HAD PLAYED A LOT OF THEM, AND NEVER EXPECTED THIS GAME TO BE A VERY GOOD AND REAL ONE.PLAYER ON THE WHOLE IS SO CREATIVE AND FUN, I JUST CANT STOP, THE IDEAS ARE WONDERFUL!!!AND THE GAME IS REALLY EASY TO USE REVIEWABLE VIDEOEDITION 4 REVIEWED VIDEOEDITION 4STORY 3 STORY 3DESIGN 3 DESIGN 3HOW YOU USE 3 HOW YOU USE 3 STORY (3), CONTENT (3), DEVELOPMENT (4) 5.0x Price; 5.0x Quality; Больше обзоров Louise Collins Reviewed on Oct 21, 2017 Rating 5.0x "Who would have thought VR would be so fun??? This is an amazing game which I really enjoy playing on my HTC VIVE. I am a huge Doctor Who fan, and this game is a wonderful way to get in to the series (which I love) with a friends or family. The only drawback is that it is 2 hour

What's new in Dim Glow:

Sounds Building upon their incredibly popular saga of customization and building, Star Conflict is coming soon to a galaxy near you! Release date is September 4th 2014, and I can't wait to start playing this game. Unlike most games that I try and play I feel like I need to dedicate as much time as possible to help the game get as well polished as possible. Although I can hardly wait any longer to start testing the game, I figured it would be best to go over Scylla Sound Deck and see how I can emulate the sounds of this awesome ship. This resource Pack contains custom SCXI sounds, Dialogues, and music in the background. I was working with Pioneer and the developers to meet their needs as best I could, so we have included multiple sounds for the various builds that were used on the demo. All sounds have been carefully enhanced to accentuate components that will fit with the rest of the sounds or look amazing as you play the game. Other than that, I hope you enjoy using this resource and its sonic companions. As I have been releasing these packs and posting videos of my Star Conflict experiences, I always ask for your feedback and comments. I hope to see you all on the battlefield! STAR CONFLICT: Scylla sounds Pack 1 By SeeFurcast3d What's inside Star Conflict: Scylla Sounds 1 is a collection of sound packs for the in-game music and sounds. This pack consists of 16(!) custom made sound tracks of Star Conflict. All are optimized for your computer and will give you a better gaming experience. I left the original source files alone because I always leave the default sounds in my audio mixing software. Therefore you have to change the volume at each time you add a file so they won't catch a weird flickering or will make your PC unusable. The pack contains a downloadable file and instructions to download the files. The audio files are mixed into background music and sound effects. Download link: Star Conflict: Scylla Sounds 2 will be ready in the latest 3 days. In this Sound Pack a primitive and heavy foundation is included containing a lot of different sound effects. At the same time I'm going to add some atmospheric music to compliment the stuff. You will find here a lot of parts and elements for creating a more powerful ambient sound mix. 16
