Tunable plasmon-induced transparency in meta-material optical switch. We experimentally demonstrate tunable plasmon-induced transparency in a quasi-one-dimensional gold-clad metal-dielectric core-shell plasmonic waveguide. The metamaterial optical switch consists of a subwavelength dielectric gap between two dielectric ridges. We first study the enhancement of the dark mode in a coupled mode theory. In this enhanced dark mode, the light is exponentially attenuated due to the local field enhancement. By increasing the width of the dielectric gap, the dark mode consequently becomes narrow. We experimentally generate and verify this phenomenon in a coherently coupled, plasmon-induced transparency switch with 3 μm -thick glass ridge and 1.57 μm -thick gold-clad polyvinylidene difluoride ridge with a width of approximately 380 nm. Furthermore, we observe dips in the transmitted spectrum corresponding to the dark and bright modes of the waveguide. Long-term local estrogen therapy decreases aortic pulse wave velocity in postmenopausal women.

"The new Tarnished game from Square Enix has an excellent opening cinematic. It's very well done, especially since most of the gameplay will not be seen until later in the game." "Most of the gameplay takes place in dungeons, with a variety of intricate environments as well as a few sidequest which can only be done once per character. The combat system is really well done, and being able to summon different weapons is really useful. The dungeon exploration aspect is superb, with enemies changing as you progress deeper. The game has an interesting cast of characters who are just as interesting as the dungeon maps." "It's worth it to invest your time and money in this game because it is definitely a solid RPG. Graphically, the game looks very impressive on the PSP." "The new Tarnished game is action RPG, and you should play this game, not because of the glorious visuals, but because this game is a good game." Some of the best graphics of the series. A great sense of adventure. And added features like battle and skill leveling. If you're not looking for a perfectly polished RPG, but more of an adventurous world, this game is for you. And if you're looking for a fun and nostalgic game to play in the car this is a must. It's my game of the year." "This is a really fun RPG." "This is definitely an awesome RPG. There is combat, lots of weapons to pick up and a city you can visit. There is also a big deck of cards you can use in battle, and I like using the... I love this game!!" "This game has great atmosphere. And a great story that is made of lots of quests, and dungeons."
