System Requirements For Necro Immortallis:

Please Note: Please note that the Guest Addon currently has a bug that prevents play after the first 2 seconds of gameplay. A patch is currently in the works to address this, but we'll be working to release an update prior to the final 2.0 build. If you encounter any problems or issues, you can report them here: We've added some additional criteria for inclusion, and have made it so that the game does not run on Windows XP and earlier. You'll need to update
