A: First thing is that your MAC OS is not compatible with both of the versions you are trying to use. Since your machine is NOT a MAC OS, you can't use the latest version of MS Office after this version of MAC OS is no longer supported by Microsoft. And since you are using Office, there are chances that if you start using the latest version, the previous version will be forced to uninstall. So, to avoid the issues mentioned above, I think it's better to use the latest version of MS Office. Because like you said, you won't be able to use the version you are trying to use and if you uninstalled, then you will have to re-install it. A: For office application, I think this link is the right one. It explains what you need to use. For some QuickBooks, I think you need QuickBooks 2014. This is the only working version from QuickBooks side. Making a difference in the world by being the voice of change through education, empowerment and advocacy for women and girls.
