Â· Sanat Kumar Das, V.3,
Svayambhu Puranam. Vyasa
Puranam, Chapter 1, Sloka 6

Why is Garuda Purana read when someone passes away?

Some people have heard of the phrase that reading Garuda Purana after a death is. 413: The True

Way*.Regional hemodynamic effects of adenosine in

patients with heart disease: a study by color Doppler

echocardiography. Adenosine is thought to have vasodilator

properties which is the rationale for its use in patients with ischemic heart disease.

Its effect on regional myocardial blood flow, however, is not well defined. We evaluated the distribution of local myocardial perfusion and regional wall motion in 12 patients with coronary artery disease and severe left ventricular dysfunction

(ejection fraction less than or equal to 30%) under conditions of normal resting flow and before and after intravenous adenosine (Ad). At baseline, Ad caused a significant reduction in left ventricular contractility and a significant increase in heart rate. In the working myocardium, Ad induced a significant decrease in systolic

and diastolic blood flow (perfusion-time integral) with no change in end diastolic and end systolic volumes. In contrast, Ad produced a significant increase in end diastolic and end systolic volumes in the resting myocardium. This redistribution of end diastolic and end systolic volumes was associated with a significant

increase in relative wall thickness. These data indicate that Ad causes a redistribution of myocardial blood flow within the myocardium which will affect regional myocardial function.

Q: Style for Select Option I am trying to style a select option and if the user has different languages selected I am trying to find

out which one they have selected using a class. For example if the user has selected "Traditional" I want to add a style of "text-decoration-line: dotted;", but if he has selected "Roman-American" then I want to add "text-decoration-line: none"

My code is as follows:
