So the sum of all elements of the array equals 3+1 =4 Here is my problem. I tried to convert the problem into algorithm form but I couldn't A: Start with an empty array X. Apply Dijkstra's Algorithm to find the distance from the source to each element (or rather, the value of the edge from the source to each element). (Warning: The implementation below is rough. Consider using a better algorithm instead.) Let F = min(d(u) for each u in X). Add F to each element in X. This is a very naive implementation, but you get the idea. I hope it helps. Martial Arts 101 This comprehensive pdf is designed for the beginner student to get a full understanding of what's going on in a standard Chinese Martial Arts Dojo and what they should expect to see when they become a more seasoned student.
