KEYMACRO is a lightweight, easy-to-use macro recorder for Windows. Once recorded, macros can be re-used to perform complex, repetitive tasks much faster. KeyMACRO is available in seven different languages: English, German, Spanish, French, Italian, Dutch and Russian. It is available in two different versions: KeyMACRO Basic and KeyMACRO Professional. KeyMACRO Basic is free to use and has a limited number of pre-defined macros. KeyMACRO Professional has a full feature set, with many more macros to be created, and is available for purchase. Both versions are highly compatible with Windows 10. KeyMACRO Basic comes with a trial period that lasts 7 days, but KeyMACRO Professional comes with a 1-month trial period and is available for a one-off payment of \$30.00. KeyMACRO offers the following features: Record up to 100 unique macros KeyMACRO Professional has a built-in macro editor. This allows users to edit existing macros, create new macros or share their own macros with other users. Record in multiple languages KeyMACRO Professional allows you to choose between the 7 languages that are currently available for use. It also allows users to record macros in more languages in the future. Save your macros to text files KeyMACRO Professional allows you to save all of your recorded macros to text files in multiple formats, such as .txt, .xml or .kml. Save your macros in your system clipboard KeyMACRO Professional allows you to save all of your recorded macros to your Windows clipboard, meaning you can easily paste them wherever you want to use them. One-click instant macros KeyMACRO Professional has a built-in one-click instant macro button that allows you to quickly record one of your defined macros. Use in-built text editors KeyMACRO Professional allows you to choose between several different in-built text editors, including Microsoft Word, Excel and Notepad. Share your macros KeyMACRO Professional allows users to share their recorded macros with other users via email. To do this, simply add the users name and email address to your KeyMACRO list and select "Share with others" from the "Menu" tab. Search for macros KeyMACRO Professional allows users to search for specific macros within your recorded macros. Undo / redo macros KeyMACRO Professional allows you to undo or redo your macros.
